All signs constructed, erected, modified or moved after the effective date of this Ordinance shall comply with the regulations herein, unless expressly exempted.

**Section 8.02 Sign Definitions**

The following are the definitions and illustrations relating to signs within the Fairbury zoning jurisdiction.

**ADVERTISING SIGN** shall mean a sign which directs attention to any product, activity, or service; provided, however, that such sign shall not be related or make reference to the primary use, business activity, or service conducted on the premises.

**ANIMATED SIGN** shall mean any sign that uses movement or change of lighting to depict action or create a special effect or scene.

**ANNOUNCEMENT SIGN** shall mean a small sign, not over six square feet in area, except that an announcement sign or bulletin board not over 18 square feet in area, set back at least 20 feet from any highway, street, road, or roadway easement may be erected in connection with any of the permitted principal uses of a nonresidential nature.

**ARCHITECTURAL CANOPY SIGN** shall mean an enclosed, illuminated or non-illuminated structure that is attached to the wall of a building with the face of the sign approximately parallel to the wall and with the sign's area integrated into its surface.

**SIGN AREA** shall mean the entire area including the background of a sign on which copy can be placed but not including the minimal supporting framework or bracing. The area of individually painted letter signs, individual letter signs or directly or indirectly illuminated individual letter signs, shall be calculated on the basis of the smallest geometric figure that will enclose the entire copy area of the sign. Any such calculation shall include the areas between the letters and lines, as well as the areas of any devices, illuminated or non-illuminated.

**AWNING OR CANOPY SIGN** shall mean any sign that is a part of or attached to an awning, canopy, or other fabric, plastic, or structural protective cover over a door, entrance, window, or outdoor service area. A marquee is not a canopy.

**BANNER SIGN** shall mean any sign of lightweight fabric or similar material that is permanently mounted to a pole or building by a permanent frame at one or more edges. National flags, state or municipal flags, or official flag of any institution or business shall not be considered banners.

**BILLBOARD SIGN** shall mean a sign that identifies or communicates a commercial or noncommercial message related to an activity conducted, a service rendered, or a commodity sold at a location other than where the sign is located.

**CHANGEABLE COPY SIGN** shall mean a sign or portion thereof with characters, letters, or illustrations that can be changed or rearranged without, altering the face or the surface of the sign. A sign on which the message changes more than eight times per day shall be considered an animated sign and not a changeable copy sign for purposes of this ordinance. A sign on which the only copy changes is an electronic or mechanical indication of time or temperature shall be considered a "time and temperature" portion of a sign and not a changeable copy sign for purposes of this ordinance.

**CLOSED SIGN** shall mean a sign in which more than 50 percent of the entire area is solid or tightly closed or covered.

**COMMERCIAL MESSAGE SIGN** shall mean any sign wording, logo, or other representation that, directly or indirectly, names, advertises, or calls attention to a business, product, service, or other commercial activity.

**COMMUNITY OR CIVIC SIGN** shall mean a sign containing business logos and/or logos of civic organizations. The sign is intended to provide space for several businesses and/or organizations on one sign, and all advertising is similar in size. The primary intent of the community or civic sign is for informational purposes and to communicate information to the motoring public as to businesses and organizations that are active in the community. Community or civic signs are owned and operated by the local chamber of commerce or other civic organization or non-profit entity.

**DESTINATION SIGN** shall mean a sign used to inform and direct the public to important public places and buildings, landmarks, and historical sites in the most simple, direct, and concise manner possible.

**FLASHING SIGN** shall mean a sign, which, by method or manner of illumination, flashes on or off, winks, or blinks with varying light intensity, shows motion, or creates the illusion of being on or off.

**FREESTANDING SIGN** shall mean any sign supported by uprights or braces placed on or in the ground, which is used principally for advertising or identification purposes and is not supported by any building.

**GROUND SIGN** shall mean a sign mounted directly to the ground with a maximum height not to exceed six feet.

**ILLUMINATED SIGN** shall mean a sign illuminated in any manner by an artificial light source.

**INCIDENTAL SIGN** shall mean a sign, generally informational, that has a purpose secondary to the use of the zone lot on which it is located, such as "no parking," "entrance," "loading only," "telephone," and other similar directives. No sign with a commercial message legible from a position off the zone lot on which the sign is located shall be considered incidental.

**MARQUEE SIGN** shall mean any permanent roof-like structure projecting beyond a building or extending along and projecting beyond the wall of the building, generally designed and constructed to provide protection from the weather.

**NAMEPLATE SIGN** shall mean a sign not exceeding 2 square feet for each dwelling.

**NON-CONFORMING SIGN** shall mean any sign that does not conform to the requirements of this ordinance.

**OBSOLETE SIGN** shall mean a sign that advertises a business no longer in existence or a product no longer offered for sale and has advertised such business or product for a period of six months after the termination of the existence of such business or the termination of sale of the product advertised.

**OFF-PREMISES SIGN** shall mean a sign including the supporting sign structure which directs the attention of the general public to a business, service, or activity not usually conducted, or a product not offered or sold, upon the premises where such sign is located.

**ON-PREMISE SIGN** shall mean a sign, display, or device-advertising activities conducted on the property on which such sign is located.

Examples are: menu and sandwich board signs, balloons used as signs, umbrellas used for advertising, and signs attached to or painted on vehicles parked

**SIGN SETBACK** shall mean the horizontal distance from the property line to the nearest projection of the existing or proposed sign.

### **Section 8.03 Sign Area Computation**

#### **8.03.01 Computation of Area of Individual Signs**

The area of a sign face shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed, but not including any supporting framework, bracing, or decorative fence or wall when such fence or wall otherwise meets zoning regulations and is clearly identical to the display itself.

#### **8.03.02 Computation of Area of Multi-faced Signs**

The sign area for a sign with more than one face shall be computed by adding together the area of all sign faces visible from any one point. When two identical sign faces are placed back to back, so that both faces cannot be viewed from any point at the same time, and when such sign faces are part of the same sign structure and are not more than 42 inches apart, the sign area shall be computed by the measurement of one of the faces.

#### **8.03.03 Computation of Height**

The height of a sign shall be computed as the distance from the base of the sign at normal grade to the top of the highest attached component of the sign. In cases in which the normal grade cannot reasonably be determined, sign height shall be computed on the assumption that the elevation of the normal grade at the base of the sign is equal to the elevation of the nearest point of the crown of a public street or the grade of the land at the principal entrance to the principal structure on the lot, parcel, or tract of land, whichever is lower. When a sign is placed on a berm, the height of the sign shall include the height of the berm above grade level at the base of the berm.
