

**H Street Pre-Construction Meeting**  
**Jefferson Community Health & Life, 2200 H St**  
**Monday, February 26, 2018 4:00 pm to 6:00 pm**

**PROJECT SCHEDULE & PHASING**

**PROJECT INFORMATION**

H will be reconstructed in five phases to minimize impacts. The reconstruction work will include; removal of existing pavement, grading, utility work, new pavement, new sidewalk, and new street lighting.

The expected start date for underground utility work is March 16, 2018. The Street will remain open during utility work but may have limited access at times.

Street improvements may begin April 2, 2018, beginning with Phase 1. Each Phase will be open to traffic before another phase will begin. During construction of each phase the street will be closed to thru traffic. Access will be limited to foot traffic only during that project phase. Alternative parking and access to each residence will be required. Alternate parking areas for phases 3, 4 and 5 may include Jefferson Community Health & Life.

For the most current construction schedule please visit the project website at [www.fairburyne.org/177/H-Street-Reconstruction](http://www.fairburyne.org/177/H-Street-Reconstruction) The website will be updated throughout the project to keep residents up to date about the project.
