RE: Swimming Pool Safety

Congratulations on your new pool!

If you're not aware, the City has regulations in place regarding residential swimming pools. The purpose of these regulations is to prevent swimming pool tragedies.

Accompanying this letter is the IPMC Code, Section 303, information on swimming pools, spas and hot tubs and the required Fence permit for enclosing your pool. The permit must be completed and the \$10.00 fee paid prior to erecting the fence. Always call 811 before you dig to prevent hitting utility service lines to your property.

If you have any questions regarding the safety protocols or permit, please contact the Fairbury City Office.

Respectfully,

Carissa Lufkin  
City Clerk, Fairbury
